

## Thrive 365 Immuno-eeze

“Your first aid in a bottle”

Immuno-eeze is a unique combination of South African traditional herbals, vitamins and minerals that may collectively assist the functioning of the immune system.

Natural ingredient description.

### Sutherlandia frutescens

Commonly known as the Cancer Bush.

- Assists immune system function and may assist in cases of viral infections.
- Anti-oxidant-protects certain cells and may prevent against cell damage.

### Warburgia salutaris

Commonly known as the Pepper Bark tree.

- Anti-bacterial-this herb has been used for centuries for bacterial infections, especially chest and bladder infections and its efficacy has now been backed by scientific studies.
- Anti-yeast-has been shown to have some action on Candida infections(Thrush).
- Anti-inflammatory

### Vitamin B6

- Plays a major role in the metabolism of proteins, fat's and carbohydrates.
- Nerve tonic, assists in cases of nerve damage and mild depression.

### Vitamin B12

- A Nerve tonic that helps cellular metabolism and aids in energy production.
- Vital for the production of red blood cells.

### Zinc AAC

- Immune stimulant and Anti-oxidant.
- Studies show Anti-viral properties.

### Vitamin E

- Anti-oxidant- protects certain cells and may prevent against cell damage.
- Assists the Circulatory system and helps wound healing.

### Selenium

- Immune stimulant-studies have shown supplementation results in a slower disease progression in HIV infections and a decreased risk of mortality.
- Increases the action of anti-oxidant enzymes.
